

Argo Solutions - Simplifying your journey

> A leading technology company in Latin America, developing *solutions to facilitate expense management and corporate travel* using technology as an enabler of these processes.

> Our team is committed in simplifying our customers' routine, providing an efficient, innovative and seamless experience.

Challenge

In this competition, we provided a data set simulating real corporate travel systems - focusing on *flights* and *hotels*. Competitors must analyze this set with over one thousand users and 250 thousand travels to produce insights. **How can Argo offer the best travel experience for its customers?** Explore, invent and surprise us!
